Benton, in Aullville, Thursday, June 28, 1917, at 2:30 p. m., after a lingering illness of heart trouble and complication of diseases. Mrs. Schooler had been seriously ill for the past few months and death had been almost momentarily expected.

Mrs. Schooler was the eldest daughter of E. L. and Isabel Lockland Benton, one of Lafayette county's oldest and best known families, and was born in Lexington, September 13, 1845. On September 13, 1882, she was married to Mr. Schooler. To this union one daughter was born who died in infancy.

Mrs. Schooler is survived by one brother, G. D. Benton, and four sisters, Mrs. Mary E. Robertson of Lexington, Mrs. W. H. Littlejohn, Mayview, Mrs. H. A. Farrell and Miss Fannie Benton of Aullville.

FIERCE RACE WAR IN EAST ST. LOUIS

Mob of Whites Fire Five Negro Sections and Shoot the Fleeing Residents.

MANY PERISH IN THE FLAMES

Police and Military Unable to Control Situation Call for Reinforcements—Militia in Control.

East St. Louis, Ill., July 3.—Fires were burning in five parts of East St. Louis at 1 o'clock this morning and at least twenty dead negro bodies and crowded hospitals testified to the terror that reigned here last night while mob after mob swept the streets seeking negroes whom they might slay.

At this hour it was impossible to make an accurate estimate of the number of dead. But this was known:

Five negro sections of the city were fired by mobs, terrorized negroes fled from their burning homes only to meet bullets from the guns of the rioters; four other negroes were shot by snipers and two were lynched.

Negroes Started Trouble.

One white man was killed by a negro rioter and before the burning began tonight four negroes and one white man were killed. This includes the detective sergeant whose death at the hands of a negro mob late Sunday night was the direct cause of the outbreak Monday afternoon and Monday night.

Estimates of the number of dead run up to one hundred and higher, but these estimates are purely conjectural. The exact number slaughtered probably never will be known, as it is thought that many bodies were consumed in the flames.

Believes Militia Can Control Now.

Adj. Gen. Frank S. Dickson of Illinois arrived from Washington and took charge of the race riot situation shortly after midnight this morning. He went into conference immediately with military and civil authorities to outline a plan of procedure today.

Adjutant General Dickson said that troops would be distributed in small groups throughout the city today and that they would be instructed to disperse every gathering of persons for any purpose whatever.

"We intend to see to it that crowds do not have opportunity to gather today," stated Adjutant General Dickson. "In this way it will be possible to nip in the bud any disturbance to day or tonight."

"Five hundred rioters, the ringleaders of the biggest mob I am informed, are now under arrest," said General Dickson. "This was accomplished by surrounding the rioters and forcing them to submit without shooting or employing the bayonet."

15 DEAD IN LAKE ACCIDENT

Thirteen Others Injured When Big Tank Crashes Through a Milwaukee Excursion Steamer.

Milwaukee, July 2.—Fifteen persons met death and at least thirteen others were injured severely Saturday when a 50-ton water tank, erected on the Milwaukee river front, toppled down on the Milwaukee steamer, Christopher Columbus, as she swung around preparatory to making her return trip to Chicago with four hundred passengers.

The steamer was in tow of two tugs, when, for some reason as yet unexplained, the huge vessel rammed the East Water Street dock abutting the warehouse of the Yahr & Lange Drug Company with such momentum as to cause the steel supports to the big tank to give way. The lofty reservoir crashed into the vessel near the bridge and ripped through three decks, causing a panic.

The Columbus was caught in the current where the Menominee and Milwaukee rivers converge. The tugs Knight Templar and Welcome, towing the excursion steamer, cast off their lines too soon, according to Captain Charles Moody. This caused the ship to be carried to the bank. The ship was swinging away on her return trip to Chicago.

Spaniards May Revolt.

London, July 3.—Spain appears to be in the throes of a revolution. In well informed quarters here it is believed that the fall of the Spanish monarchy and the rise of a republic in its stead is only a matter of days, perhaps hours. This view is justified by the latest developments in Spanish politics. The leading parties in the nation have formed a republican "bloc."

Germans Stop Ship Strike.

Copenhagen, July 2.—German authorities have broken the record strike at the shipyards in Stettin. They threatened to muster the strikers as soldiers and subject them to punishment as mutineers.

Gold Imports Still Coming.

New York, July 2.—Another gold shipment amounting to \$5,300,000 arrived here today from Canada for account of J. P. Morgan & Co. Imports from this source for the present movement amount to \$102,531,000.

KERENSKY LED THE RUSSIAN ADVANCE

Presence of Popular War Minister Acted as Incentive to Slav Troops.

TOOK OVER 10,000 PRISONERS

Teuton Fortified Positions at Several Points Were Captured—Little Activity on Western Front.

Petrograd, July 3.—The brilliant Russian advance, the news of which has sent a wave of rejoicing through the entire country, was led by War Minister Kerensky in person.

For the last four days the war minister has been continuously at the front, spending every effort to urge the troops to advance. He finally rode to the front line trenches and placing himself at the head of the troops gave the order to advance.

The spectacle of the popular war minister on the firing line accomplished what oratory had failed to do, and the Russian line swept forward into the German trenches.

Took 10,000 Prisoners.

Washington, July 3.—Prisoners exceeding 10,000 and the capture of the village of Konuchy and strongly fortified positions southwest of Brzezany are the first fruits of the new offensive movement of the Russian forces in eastern Galicia. North of Konuchy the Russians have attacked and fresh battles are in progress.

The Russian artillery, long inactive from lack of shells, played an important part in the defeat of the Austro-Germans at Konuchy. For two days a rain of iron was thrown into the German positions and Berlin says officially that they were turned into a crater field. The Russians not only carried three lines of German trenches and Konuchy, which was strongly fortified, but also advanced to the Konuchy stream south of the village, which is on the Zlota Lipa river.

Around Brzezany the fighting was most bitter and Berlin claims that sixteen Russian divisions were thrown forward. The Russians carried the fortified Teuton positions at several points in face of a desperate resistance by Austrian, German and Turkish troops.

Quiet in West.

On the western front there has been little marked activity. Both the British and Germans have carried out raids in the area around Lens and northward. On the Alsace front between Cerny and Allies the French have regained a line of trenches from the Germans after spirited fighting.

In the Trentino south of Riva the Austrians have attacked Italian positions between Lake Garda and the Ledro valley. Rome reports that all the Austrians' efforts were checked with loss.

Russians Begin Big Drive.

Washington, July 2.—The soldiers of new Russia have assumed the aggressive. For the first time since the revolution last March, Russian troops have begun an attack on an extensive scale, according to dispatches reaching the United States.

Along a front of eighteen and one-half miles in the region of Brzezany, Galicia, Russian troops have stormed the German positions. Berlin says the Russians suffered heavy losses and were compelled to retire before the German fire. The attack was made between the upper Stripa and the Narayuvka river, a tributary of the Gnila Lipa in the section south-east of Lemberg, the Galician capital, where the artillery firing has been heavy recently.

Made Night Attacks Too.

The Russians also made night attacks on both sides of Brzezany and near Zwyzyn; and Berlin reports that assaults between the Zlota Lipa and the Narayuvka have brought on new battles between the opposing forces. The artillery arm of the Russian forces has been active and from the Berlin report it is learned that an intense duel has been in progress from the region of Brzezany to as far northward as the middle Stokhod in Volhynia, a distance of about 175 miles.

British Make Progress.

Field Marshal Haig continues to tighten his grip on Lens. On the north bank of the river Souchez, British troops have captured German positions on a front of half a mile south and west of Lens. The British army during June captured 8,686 German prisoners, including 175 officers and sixty-seven guns, including two heavy guns as well as much other war material.

The French and Germans continue to battle at various points on the Meuse from Cerny to the Verdun region.

Potatoes Down to 17.

Chicago, June 30.—Potatoes at the good old price of \$1 a bushel were predicted for the near future in the produce market here today. Wholesale prices were off forty cents a bushel today and receipts are constantly increasing, it was said.

Washington, June 30.—Graduated instead of flat taxes upon excess profits in the War Revenue Bill were discussed and generally approved today by the Senate finance committee.
